

PLEASE do not deregulate the Media. As it is, there are only a handful of good TV & radio stations left. I used to call TV a wasteland, now it's a land of STINKING waste. If you are at all concerned with the freedom of our media you won't subject us to 500 channels all speaking with the same voice.

THE BEST NEWS ON TV IS BBC.

Programs on prime time are just too banal to watch. They teach our children how to strive for mediocrity; how to disrespect everything; that it's 'cool' to 'lose it' and/or to become violent; how to come up with good reasons or excuses so they don't have to take responsibility for their actions.

If we are to have a strong America, you need to allow us wide opinions, wide coverage, so we have enough information to make intelligent & educated opinions on issues, and the truth of what is happening around the world from different perspectives.

BEST PROGRAMS ARE ON PUBLIC STATIONS,
THE HISTORY CHANNEL, TLC, DISCOVERY,
TMC ETC.

What happened to our protections from conglomerates? We are not to be controlled like a class of children!

To further limit our quest for information by deregulation will create a social slide in America that is totally unacceptable.

PLEASE DO NOT CRIPPLE AMERICA BY DE-REGULATION. IT WOULD BE THE GREATEST EXAMPLE OF "AMERICA DUMBED DOWN."

Mediocrity will slip into the sewer.
